20a. How does the Committee accomplish its purpose?

The division supports research in the following areas: Chemical, Biochemical, and Biotechnology Systems; Bioengineering and Engineering Healthcare; Environmental Engineering and Sustainability; Transport and Thermal Fluids. CBET has had many special emphasis panel meetings during the past fiscal year. Each panel successfully ranked the proposals for the programs for which it served. Panel results and deliberations are used to assist program officers with advice and are also provided to the engineering community.

20b. How does the Committee balance its membership?

The panel members offered the perspectives of academia, industry, and government. Minority, women, and persons with disabilities were also represented at the meetings. Members provided advice and recommendations regarding a wide range of proposals, including unsolicited and CAREER applications. The program staff found such advice and recommendations invaluable.

20c. How frequent and relevant are the Committee Meetings?

CBET meetings were held after the closing date of each program announcement or proposal deadlines. On the average each panel reviewed approximately 40 proposals and provided a knowledgeable balanced review of proposals.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

Panel review in combination with mail review can provide judgments about the comparative merits within a group of proposals. Much better judgment and timeliness of reviews is obtained from the interaction of such experts with each other. This is possible only in panel review. Individual proposals receive balanced review due to the interaction process.

20e. Why is it necessary to close and/or partially closed committee meetings?

To review proposals that included information of a proprietary or confidential nature, including technical information; financial data such as salaries; personal information concerning individuals associated with the proposals; and more candid reviews are obtained.

Narrative Description

The NSF mission is set out in the NSF Act of 1950 authorizes and directs the Agency to initiate and support: basic scientific research and research fundamental to the engineering process; and science and engineering education programs at all levels and in all fields of science and engineering. The involvement of knowledgeable peers from outside the Foundation in the review of proposals is the keystone of NSF's proposal review system. Their judgments of the extent to which proposals address the merit review criteria are vital for informing NSF staff and influencing funding recommendations.

Cost Savings Comments

The use of panelists to review proposals for the Agency is an invaluable asset. The cost of obtaining the expertise, insight, and information received by the Division using alternative methods, such as hiring the expertise as full or part-time employees, would be extremely high.
